

# Product Specification

Product No.: E012226

Product Name: Carboxymethyl cellulose sodium salt ,Ceramic-Grade

CAS : 9004-32-4

| Item                   | Specification                                |
|------------------------|----------------------------------------------|
| Color and form         | White to off white solid                     |
| Viscosity              | 400-1000 mpa. s (2% aqueous solution type b) |
| ASSAY                  | ≥ 74.0%                                      |
| Water                  | ≤ 10.0%                                      |
| PH                     | 6.0-8.5 (10 g / l in water)                  |
| Degree of substitution | ≥ 0.9                                        |
